Food, Civil Supplies Consumer Protection & Minorities Development**

Dr. Vilasrao Kadam

Regional Director

Bharati Vidyapeeth's Educational Complex, Navi Mumbai

Dr. Anjali Kalse

Director

BVIMSR, Navi Mumbai

Warm Greetings from Bharati Vidyapeeth's "Institute of Management Studies and Research", Navi Mumbai. This global pandemic has led to market failure in most countries around the world and a decline in global economic growth prospects. It poses a threat to international trade and is likely to erode the gains made towards trade liberalization over the past few decades. The lack of cooperation between countries to tackle this crisis has exacerbated the economic situation of the world. Today, we see an apparent shift from 'hyper-globalization' towards state-led nation-building and self-sufficiency to protect from future vulnerabilities. However, this seems like a short-term solution to the problem; in the long-run countries are bound to re-approach the pragmatism of international cooperation and interdependence. In lieu of this, it becomes imperative for India who is an important member of trade associations like BRICS and G20 to not only forge better trade ties with various countries for economic cooperation but also further the cause of global trade for economic and social development particularly of the developing countries.

About BVIMSR:

BVIMSR has been consistently ranked amongst the top B Schools in Navi Mumbai & Western India. With a world-class infrastructure at a serene location, BVIMSR provides a holistic environment for all-around learning and development. It espouses the values of its parent body Bharati Vidyapeeth which has constantly over five decades endeavored to transform society through dynamic education.

BVIMSR prides itself on being a student-centric institute. Students here are entrusted with resources and responsibilities early on. They are encouraged to take important administrative and policy decisions that sculpt their future and that of the Institute. This facilitates their all-round development, over and above academic performance. The Students' Council at BVIMSR is the student body responsible and accountable for all activities on the Campus throughout the year.

BVIMSR has developed unique learning initiatives that have come to be the hallmark of the institute. These initiatives are the outcome of three decades of experience in the field of management education. They have been developed with the help of faculty, who are in touch with the industry's current needs and the active participation of the students themselves.

About the Programme

India and Malaysia have strong cultural, historical as well as trade ties since ancient times. Both countries are full members of the Commonwealth of Nations, Asian Union, and G15. The two countries are on excellent friendly terms and Malaysia is home to a strong concentration of Indian immigrants. The two have also signed a Comprehensive Economic Cooperation Agreement (CECA) in 2011 alongside cooperation in sectors of IT, Services, Tourism, Indian medicine, and numerous cultural exchange programs. India is a prime destination for Malaysian students, particularly in the medical field. To an estimate, more than 30% of the doctors in Malaysia have been educated in India. The Indian government provides scholarships to Malaysian students. India-Malaysia defense relations have progressively grown over the years with Defense Cooperation meetings at the level of Defense Secretary being held regularly. Malaysia is the third-largest trading partner for India within ASEAN, and India is the largest trading partner for Malaysia from among the countries of the South, excluding China. Malaysia is currently one of the largest investors in India with increasing foreign direct investment inflows year after year. There are over 100 Indian companies including 60 Indian joint ventures operating in Malaysia. On the trade front, their bilateral trade volume is poised to reach \$25 billion by 2020. The Symposium aims at understanding the areas of economic cooperation between both the nations and the means with which the economic cooperation between the two could be further enhanced.

Resource Persons:

**Mr. ZAINAL AZLAN MOHD NADZIR
